

# Constipation Relief Solutions patch

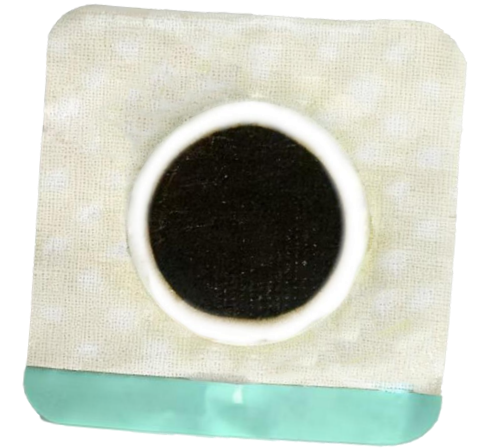

# Product Description

Our Constipation Relief Solutions Patch is a non-invasive, topical way to ease occasional constipation—no oral meds needed.

Thin, breathable, and discreet, it sticks securely to your abdomen. Its formula works gently to soften stool, soothe intestinal tension, and help restore regular bowel movements. Single-use design makes it easy to use at home or on the go.

Weight:62g  
Size:130\*100\*40mm  
Specification: 10Bags/Box

## Ingredients

Aloe Vera.Coptis Chinensis.Radix  
Orange.Poncirus .Aurantii.Apogon.Radix.Scrophulariae.  
Radix.Officinalis,Radix Officinalis,Radix  
Rehmannia,Radix Paeoniae,Radix

## Uses

Constipation Relief Solutions patch: With Vanillin butyl ether in the acupoint patch. It locks the heat into body, irritate acupoint. Relieve discomfort cause by indigestion and poor bowel movements bloating and fever

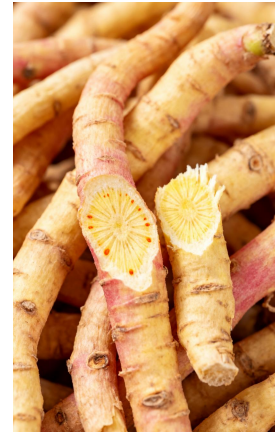

# Natural Botanical Extracts

Nourishing & hormone-free

## Figwort Root

- Key effect for bowels: Relieves constipation caused by "dry heat" (e.g., dry stool, thirst, sore throat).
- Simple explanation: It adds moisture to the intestines and clears heat to soften stool.

## Fresh Rehmannia Root

- Key effect for bowels: Works best for constipation linked to "blood dryness" (e.g., dry stool with tiredness, pale skin).
- Simple explanation: It nourishes blood to keep the intestines moist, making stool easier to pass.

## Moutan Bark

- Key effect for bowels: Helps mild constipation caused by "stagnant heat in blood" (e.g., slightly dry stool with irritability).
- Simple explanation: It clears heat from blood and improves circulation, which indirectly eases bowel movements.

## Red Peony Root

- Key effect for bowels: Aids constipation related to "blood stasis + heat" (e.g., dry stool with abdominal discomfort).
- Simple explanation: It relaxes blood vessels, clears heat, and helps the intestines move waste smoothly.

# ● Target Group

## People with imbalanced diets

Insufficient dietary fiber (e.g., eating much takeout/refined carbs, little fruit/veggies) → slow intestinal peristalsis → constipation.

### Precautions

- Consult a doctor if pregnant or breastfeeding.
- Avoid use on irritated or broken skin.
- Not for medical use. Seek medical advice for chronic conditions like insomnia or depression.

## People with little physical activity

Office workers sitting  $\geq 8$ h/day, or homebodies → slow metabolism → weak intestinal motility → constipation.

## People with declined intestinal function

Elderly (age-related weakening); those with intestinal injuries/chronic diseases (e.g., chronic enteritis) → impaired intestinal function.

# 3 Core Technologies Behind Constipation Relief Patches

## Technologies Empowering a Comfortable Eye Care Experience

### Refined Extraction Process Preserving Herbal Bioactivity

- Low-Temperature Grinding: Prevents thermal degradation of heat-sensitive components.
- Precision Extraction:
  - Selectively isolates active compounds based on solubility, ensuring higher efficacy.
- Compared to traditional high-temperature decoction, it better preserves the plant's original bioactive profile.
- Reduces impurity residues and improves extract purity.

### Multi-Strain Fermentation Enhanced Absorption

- Low-Temperature Grinding: Prevents thermal degradation of heat-sensitive components.
- Precision Extraction:
  - Selectively isolates active compounds based on solubility, ensuring higher efficacy.
- Compared to traditional high-temperature decoction, it better preserves the plant's original bioactive profile.
- Reduces impurity residues and improves extract purity.

### Breathable Skin Patch Comfortable Adhesion

- **Material:**
  - Microporous structure allows airflow, minimizing sweat buildup for long-wear comfort.
- **Adhesive:**
  - Hypoallergenic glue tested for skin irritation.
- - Stays breathable and itch-free even with prolonged use, suitable for sensitive skin.
- - Moderate adhesion secures the patch during movement without residue.

# ● How to Use

## 1 Preparation Before Use

1. Clean the skin around the navel and upper abdomen with warm water at 38-40°C, then dry it thoroughly to ensure no oil or sweat remains.
2. Inspect the skin at the application site. The patch can be used only if there is no skin damage or allergy.

## Acupoint Location 2

1. Navel Acupoint (Shenque Point): Apply the patch directly to align with the center of the navel.
2. Zhongwan Acupoint (CV-12): Place four fingers (index finger, middle finger, ring finger, and little finger) together. Align the bottom of these four fingers with the top of the navel; the upper edge of the little finger marks the location of the Zhongwan Acupoint.

## 3 Application and Removal

1. Tear off the protective film, apply the drug-coated side to the acupoint, and press for 30 seconds for tight adhesion.
2. Optimal application time: 4 hours; maximum: no more than 8 hours (overtime may cause skin discomfort).
3. To remove: Gently peel from the edge. For strong adhesion, use a little warm water to soften the adhesive first.

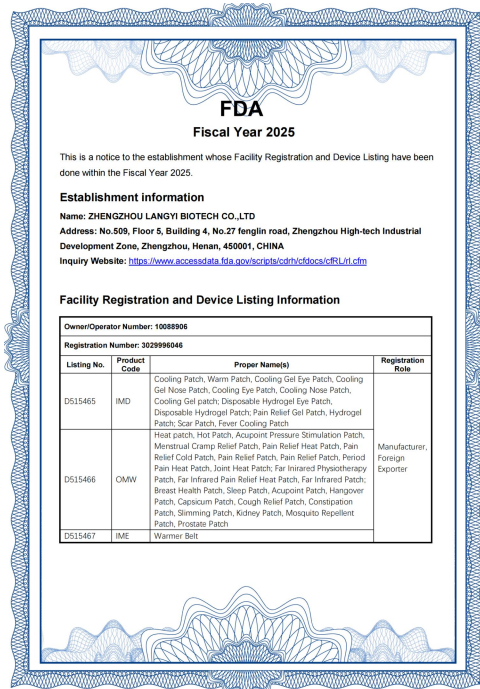

① Zhongwan (CV-12) Acupoint:  
Located four finger-widths above the belly button.

② Shenque (CV-8) Acupoint:  
The exact center of the belly button, which is where the navel is located.
